General Application/Dashboard Instructions

The first time students log in, they will land on the “**General Application**”. The General Application should be completed by each student who wishes to be considered for a Foundation issued scholarship. It contains several additional questions that may further qualify applicants to certain scholarships and also enables students the ability to provide more information to scholarship committees regarding their involvement or participation in Clubs/Organizations, Leadership, Honors/Awards, Community Service and Employment. Questions marked with an asterisk (*) are required. Students who complete the General Application can choose “**Save and Keep Editing**” at the bottom right to come back at a later date to finish the application or complete it now and choose “**Finish and Submit**”.

● General Application ⓘ

Florida State University awards numerous scholarships each academic year through the fundraising efforts of the Florida State University Foundation and the generosity of private donors. Scholarship award amounts vary and are often awarded to applicants that meet unique donor-stipulated criteria. Eligibility criteria may include requirements for specific majors, minimum GPA's, or any other number of identifying factors. All of our scholarship opportunities are very competitive and funding is limited so not all qualified applicants will be selected for an award.

Please complete the following General Application to be considered for scholarships currently being offered. You can save your application at any time by clicking **Save and Keep Editing** at the bottom of the form.

Once you have completed your application and are ready to submit, click **Finish and Submit**. You may come back and make changes to your existing application at any time during the academic year while scholarship opportunities are open; however, a new application will be required each academic year.

Note: Required fields are marked with an asterisk.

Once the General Application has been completed, students may be recommended to other applications required for a specific academic college or unit as well as other scholarship opportunities based on their student profile, all of which are voluntary and require supplemental questions be answered or additional information be provided to determine their eligibility. Applicants will automatically be matched to scholarship opportunities based on self-reported information provided on the applications or supplemental questions as well as imported data from their student record in Student Central.
